Subject: Submittal of Final Report: "Environmental Sample Collection - Newark Bay Study Area" (aka Crab-Clam-Fish Field Report)
[2015 Newark Bay Fish Tally 20170301 Revision.xlsx](#)
[20170301 Final CCF Field Report RLSO.docx](#)

Eugenia

Please find attached the following files:

- [20170301 Final CCF Field Report RLSO.docx](#): text of report showing changes from previous draft
- [2015 Newark Bay Fish Tally 20170301 Revision.xlsx](#): responsive to EPA Comment 39

The full PDF of the final report can be accessed at:

<https://www.dropbox.com/s/kh1r17tptg7xa1/20170301%20Final%20CCF%20Field%20Report.pdf?dl=0>
(it's too large to send via email).

The only specific backcheck instruction we did not follow was the comment on Comment 42 to "...add a clarifying label to differentiate..." The histograms are already clearly labeled:

- "Carapace width-frequency histograms for blue crab collected from intertidal areas in Newark Bay."
- "Carapace width-frequency histograms for blue crab collected from bay zones in Newark Bay."

If the commenter had another intent, we can certainly address it.

Thank you

Cliff
